Acid Neutralizer

Whole House Acid Neutralizing System

Acid Neutralizer

Acid neutralizer media is an economical neutralizing media that adjust low Ph up to a neutral state. Periodic backwashing will prevent packing, reclassify the bed, and maintain high service rates.

- 💧 High efficiency media for stubborn acid waters
- 💧 Low uniformity coefficient for maximum contact for controlled pH correction
- 💧 Pure calcite for enhanced performance.
- 💧 Effective, from 5.0 pH to 7.0 pH
- 💧 High flow rate
- 💧 High flow control valve
- 💧 Self-cleaning distributors

H-AN-100

Active Ingredient	Calcite
Service flow	6 gpm/cu.ft.
Freeboard	50%
Backwash rate	12-15 gpm/sq.ft @ 60F
Bed depth	24 inch Minimum
pH range	5.0 - 6.0
Screen size	12 x 40
Bulk density	90 lbs/cu.ft.

The acid neutralizer utilizes sacrificial media which adds calcium to your water. The system should have media added back to it periodically.

WARNING: Do not use with water that is micro-biologically unsafe or of unknown quality without adequate disinfection before or after the system. Intended for treatment of cold water only. Do not exceed 80 psi. Intended for residential use only. Do not allow system to freeze. Maintain temperature between 40° - 100°.
