GUARD**<sup>TM</sup>

## PROPRIETARY 5 MICRON CARTRIDGE FILTRATION SYSTEM

LEARN MORE

### Applications

- Potable water
- Pre-filtration
- Post-filtration
- And more

### Features & Benefits

- Low cost
- No media migration
- High sediment holding capacity
- Five micron rating

#### H-SG-520 Sediment Filter

5 micron sediment filter reduces sediment, sand, silt, scale and rust particles. Pleated design maximizes sediment holding capacity.

**Dimensions 23.75 x 7.75 the filters are 4.5 diameter**  
**H-SG-520 - Sediment Filtration system**  
**H-SGRC520 - Replacement Filter**

#### H-SG-510 Sediment Filter

5 micron sediment filter reduces sediment, sand, silt, scale and rust particles. Pleated design maximizes sediment holding capacity.

**Dimensions 18 x 7.75 the filters are 4.5 diameter**  
**H-SG-510 - Sediment Filtration system**  
**H-SGRC510 - Replacement Filter**
