Whole House Water Filtration and Softening System

LEARN MORE

Premium

H5-100

H2Z1054-ULT-100

H-CK10-150

ZERO backwash filtration combined with superior softening. This system pairs the H2 Zero Carbon's, ZERO backwash high efficiency carbon filtration with the CK10 softener for a silky soft chlorine free experience throughout the home.

The CK10™ AND SUPERSOFT™ performance is enhanced, having a longer life span and consuming less salt while being protected by the H2 Zero high filtration.

WARNING: Do not use with water that is microbiological unsafe or of unknown quality without adequate disinfection before or after the system. Intended for use treatment of cold water only. Do not exceed 80 psi. Intended for residential use only.

NOTE: The HALO filtration systems are intended for treatment of potable water provided by municipal water providers. While the HALO Filtration Systems may be effective for treatment of well water it is vital that a well water quality analysis be provided for review and recommendation in to ensure that optimum results can be realized. Failure to provide a current well water report to HALO Water Systems for analysis and recommendation voids all warranties.
