

LIMITED PRODUCT WARRANTY

HALO Water System's (HALO 5 Series) point of entry residential water filters and conditioners (up to 13" diameter I tanks) are warranted to the original owner at the original residential installation location to be free from defects in materials and workmanship from the date of manufacture as specified. If a HALO 5 System was purchased from a 3rd party, liquidator or by any means other than an authorized licensed wholesale distributor, the warranty is void.

CONDITIONS OF WARRANTY

- The system must be installed and maintained according to local codes and secondarily in accordance with manufacturer's recommendations. Contact HALO if there are any conflicts between local codes and our printed instructions.
- The system must be maintained with HALO approved replacement components.
- Failures resulting from fire, freezing, neglect, accident, alteration, abuse, improper installation or acts of nature are not covered.
- Water pressure must be regulated between 40 to 80 pounds per square inch working or static pressure. Pressure exceeding 80 pounds per square inch (psi) working or static pressure voids all warranties.
- If installed without a current well water report being submitted for recommendation to HALO Water Systems all warranties are void.
- Internal water temperature must be within 33° F and 120° F.
- Influent chlorine must not exceed 1 mg/L.
- HALO does not warrant to perform, pay for, or finance any repairs and/or installations. The customer must contact the HALO representative prior to any repairs or replacements
- If a recirculation pump is in use at the location of the HALO system, install a secondary HALO ion conditioner on each recirculating loop present in order to ensure expected results.
- The system must be properly installed by a licensed contractor.
- Proper precautions must be taken when installing the system near objects that can be damaged by water. HALO Water Systems, LLC accepts no responsibility for water damage or loss of property due to water damage. In areas of high risk of water damage, the use of a water protection device is recommended.
