

HALO
**SEDIMENT
GUARD™**

PROPRIETARY 5 MICRON CARTRIDGE FILTRATION SYSTEM

LEARN MORE

Applications

- Potable water
- Pre-filtration
- Post-filtration
- And more

Features & Benefits

- Low cost
- No media migration
- High sediment holding capacity
- Five micron rating

H-SG510 Sediment Filter

5 micron sediment filter reduces sediment, sand, silt, scale and rust particles. Pleated design maximizes sediment holding capacity.

Dimensions 18 x 7.75 the filters are 4.5 diameter
H-SG510 - Sediment Filtration system
H-SGRC510 - Replacement Filter

H-SG520 Sediment Filter

5 micron sediment filter reduces sediment, sand, silt, scale and rust particles. Pleated design maximizes sediment holding capacity.

Dimensions 23.75 x 7.75 the filters are 4.5 diameter
H-SG520 - Sediment Filtration system
H-SGRC520 - Replacement Filter
